NOTICE REGARDING ELECTIVE POSTING OF INTERNS

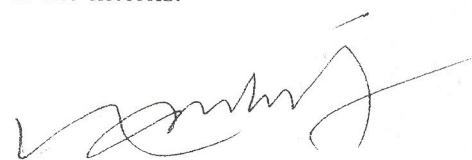

Regarding the elective posting of interns, attention of all interns is drawn to the internship regulations (MAMC), Serial No.11 (General Instructions), part (iii). (Information with respect to interns' postings may be viewed on the MAMC website).

The above-mentioned instructions regarding elective posting is reproduced as under:

“With respect to the *elective posting*, the interns have to submit their choice of elective posting to the department of Physiology *well in advance*, much before the commencement of their elective posting. It is requested that the concerned departments may *allow* the joining of elective posting in their department only on the basis of the *forwarding letter* to the effect from the department of Physiology”.

However, in spite of the above-mentioned instructions, it has been generally observed that interns submit their application for choice of their elective posting to the department of Physiology *on the day of the commencement* of their elective posting.

All the interns are once again instructed to submit their choice of elective posting to the department of Physiology well in advance. Failure to comply with these instructions and any delay that might ensue due to this shall be the sole responsibility of the interns.
