Sub- Information regarding local MDT for DSD.

Respected ma'am

This is to inform you that the local Multidisciplinary Team (MDT) for Disorders of Sex Development (DSD) within MAMC is fully functional. It comprises members/experts from various fields from the institute itself, and plays a vital role in assisting patients and their parents by clarifying queries about management issues and providing insights into future management, including sex assignment. The members of the MDT have been enclosed/attached with this.

We kindly request that information about this MDT and its role be circulated to other departments within MAMC so that they can benefit from its services. The stature and role of the MDT have been recognized and upheld by the honorable court of law also. *as well as on MAMC website*

Thank you.

Yours sincerely

Simmi
